EXPERIENCE

Software Engineer

Catco LTD

2026 - Present

Rosedale, Auckland

- Full-Stack API Integration: Developed a robust backend using Laravel 12 to interface with the PlayHQ API, implementing Webhooks for real-time data synchronization of sports scores and match statistics.
- Automated Data Pipelines: Built Python-based background services to bridge web-socket match data with the Godot rendering engine, ensuring sub-second latency for live scoreboard updates.
- Operational DevOps: Streamlined deployment cycles by implementing a containerized workflow using Docker and automated remote configuration management to minimize on-site technician requirements.

Software Engineer

Electrotest LTD

2025 - Present

Rosedale, Auckland

- Responsibility for application development includes: UX/UI development, functional development, testing, and database architecture design.

System Consultant & API Management

ILA Vietnam

2020 - 2024

Ho Chi Minh City

- Responsibility for CRM performance.
- Technical collaboration with the marketing department to create new campaigns.
- Corporation with third parties like Google, Facebook, and Tiktok to propose effective digital marketing solutions through API connections.
- Leveraging the power of automation platforms like Zapier combined with internal automatic workflow systems like Airflow to optimize data analysis processes.

Fullstack Web Developer

ILA Vietnam

2015 - 2019

Ho Chi Minh City

- Developed and deployed new landing pages to support marketing campaigns and lead generation efforts.
- Maintained and updated the main ILA website and other internal web-based systems to ensure performance, security, and uptime.
- Conducted research on emerging web technologies and implemented relevant improvements to optimize website speed, SEO, and user experience.
- Worked on both front-end and back-end development tasks using technologies such as HTML, CSS, JavaScript, PHP, and related frameworks.
- Collaborated with cross-functional teams including marketing, IT, and design to align web solutions with business goals.

Junior Web Developer

Saigon Domain

2013 - 2015

Ho Chi Minh City

- Developed responsive and interactive front-end websites using HTML, CSS, JavaScript, and modern frameworks.
- Collaborated with UI/UX designers and other development teams to ensure cohesive and visually consistent designs.
- Worked closely with backend developers to integrate front-end interfaces with server-side logic.
- Assisted the backend team with tasks related to databases and APIs, gaining hands-on experience in backend technologies.
